Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I want to track my parcel. • I need timely delivery. • I want accurate updates.	THINKS • Where is my parcel? • When will it arrive? • Is my parcel safe?
PERSONA NAME :courier customer <i>Type:customer</i> (Role:customer / User)	
DOES • Books a courier. • Tracks the shipment. • Checks delivery updates.	FEELS • Worried about delays. • Concerned about parcel safety. • Happy when delivered on time.
